

Jaguar X150 XK/XKR headliners

- Canvas Morzine Cloth - early cars, it is NOT the suede fabric, it's a velour/felt fabric
Canvas is the name of the colour.
- Canvas Alston Suede - this is in 2008-onward cars,
If you have a light-coloured suede, this is what you have
- Warm Charcoal Alston Suede - this was only in the limited edition 2009MY XKR-S
Nobody outside the UK/EU has this (200 cars only)
- Jet Alston Suede - this is the dark-coloured suede in 2010MY-onward cars.
If you have dark suede, this is it.
- Canvas Poltrona Frau - this is actual leather, not suede
- Jet Poltrona Frau - this is actual leather, not suede

So if your headliner is not suede, not leather, it's the Canvas Morzine fabric.

If you have a light colour suede headliner, it's Canvas

If you have the dark colour suede headliner, it's Jet

Doesn't matter if your seats are Ivory, Caramel, Warm Charcoal, the headliner is one of two colours.

Canvas Alston Suede – fabric is obsolete from the original manufacturer in Scotland

Jaguar has no more stock of headliners as spare parts.

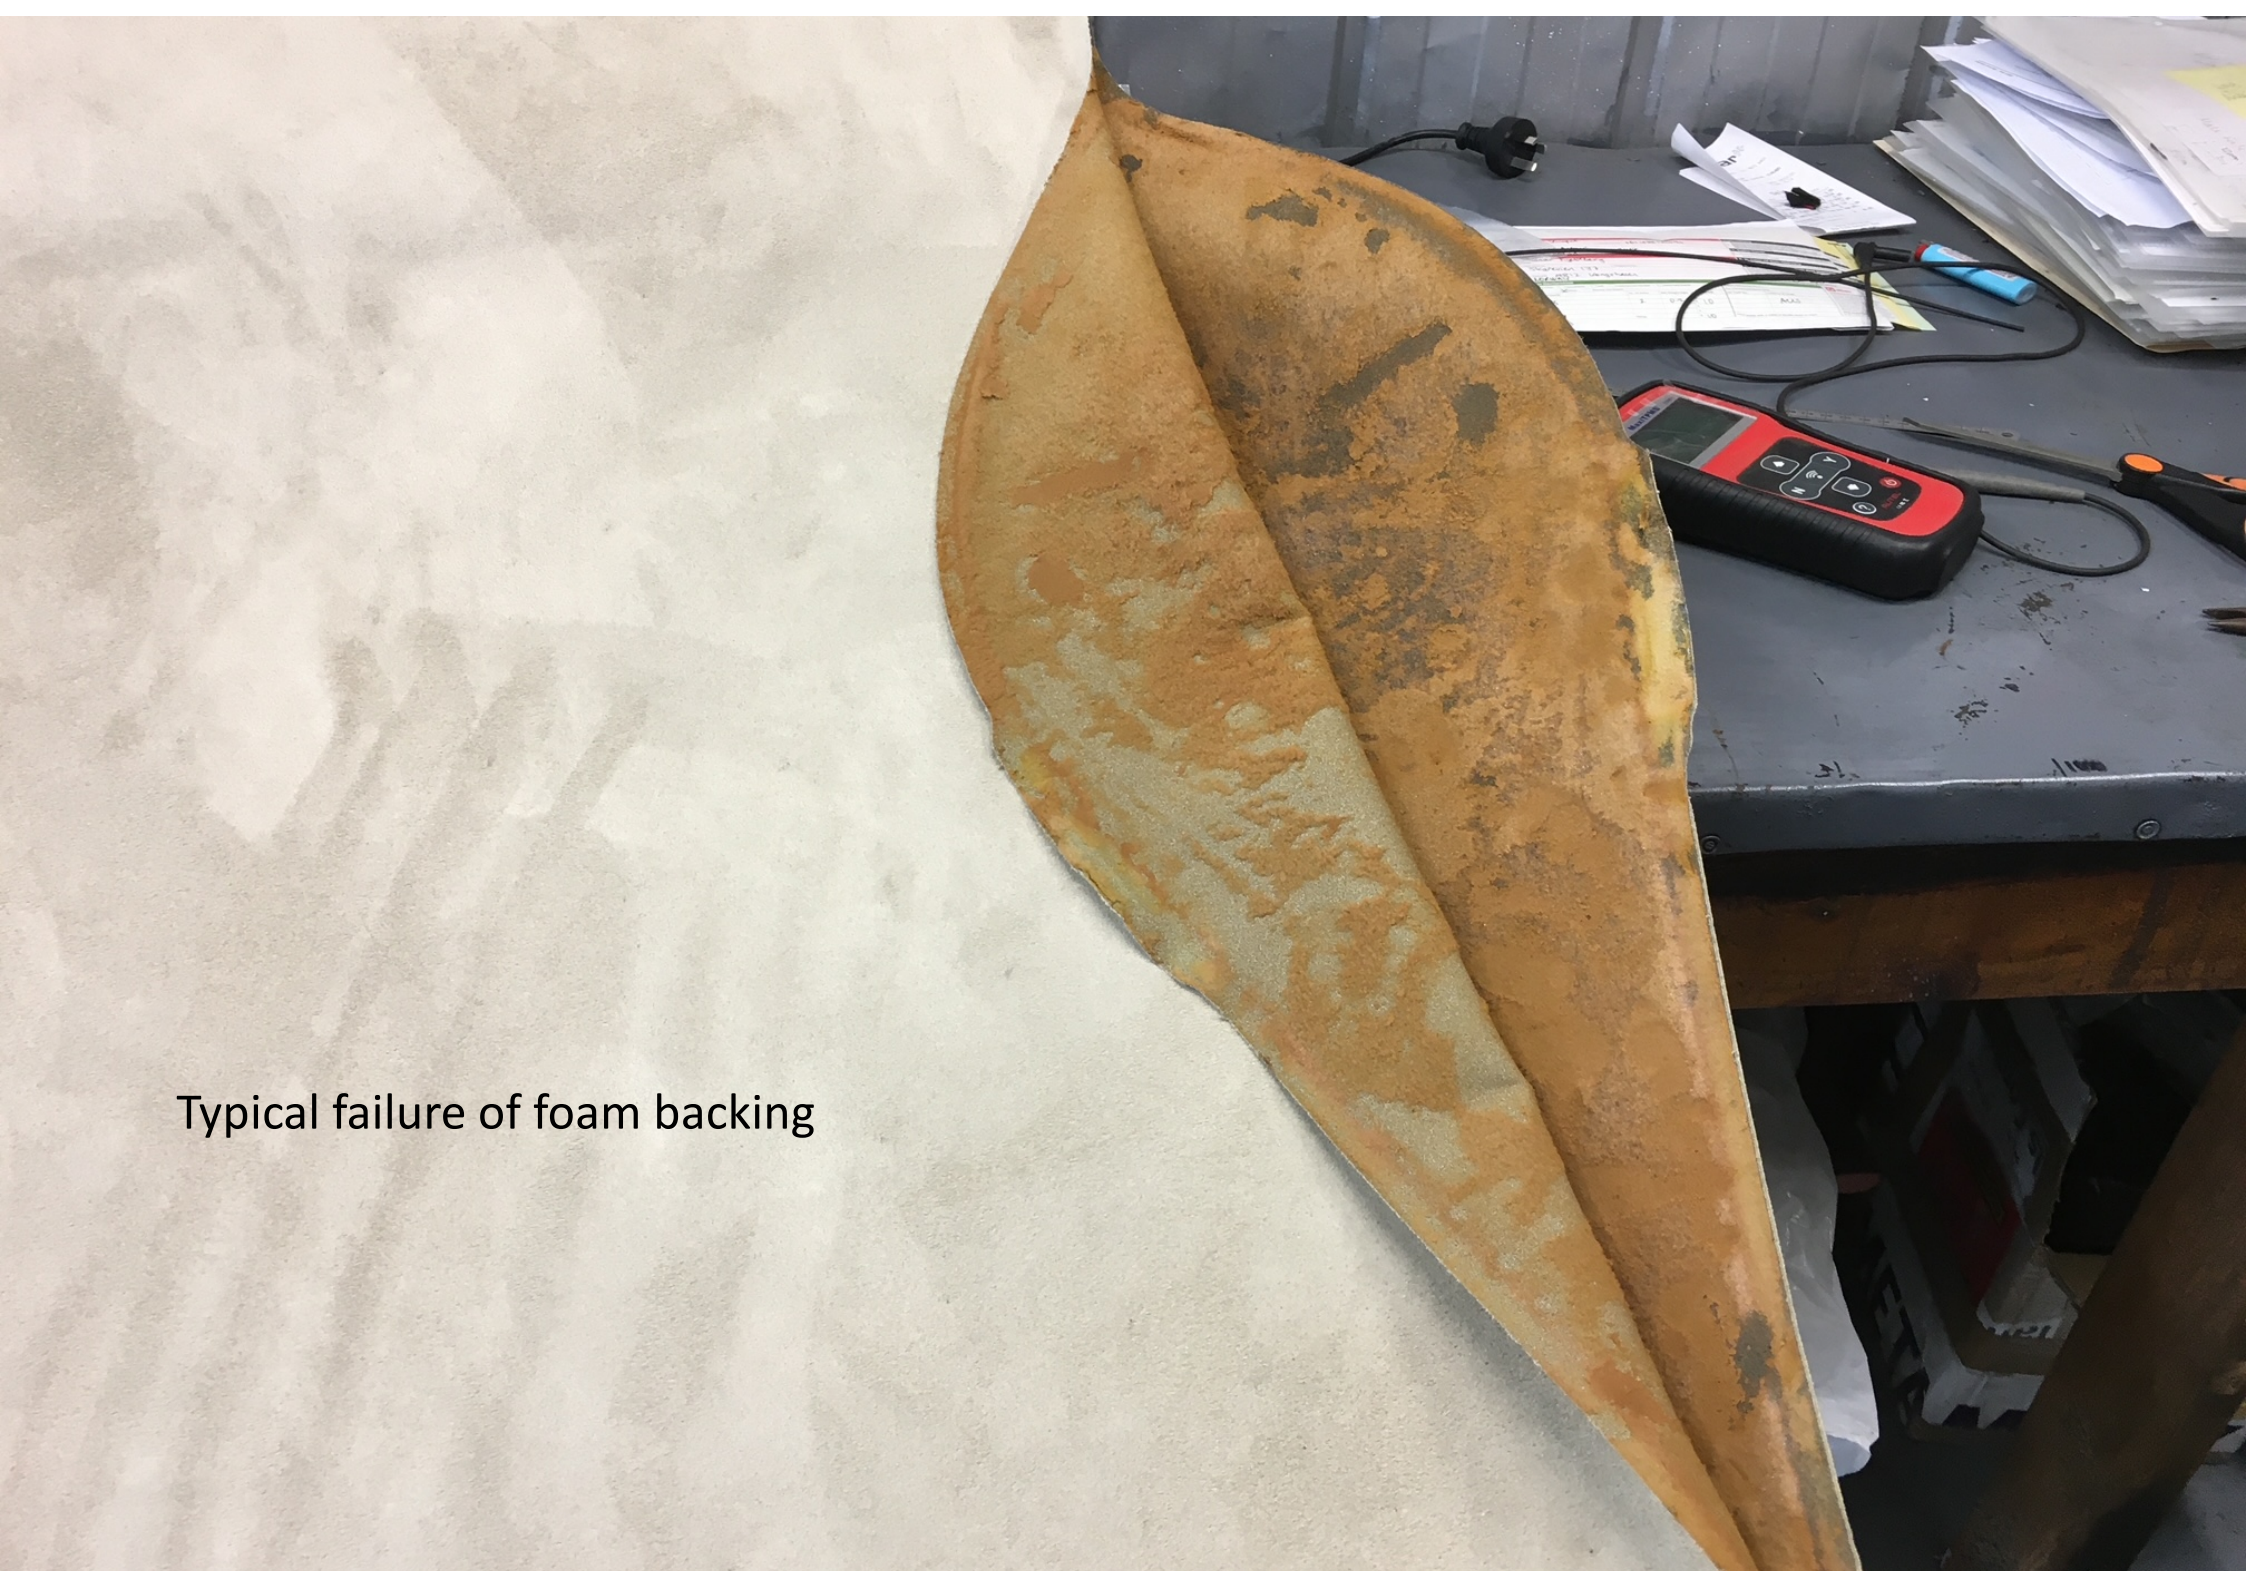

After much searching we found a perfect match suede material, so that the headliner can be re-covered without having to re-do the sunvisors or c-pillar trims.

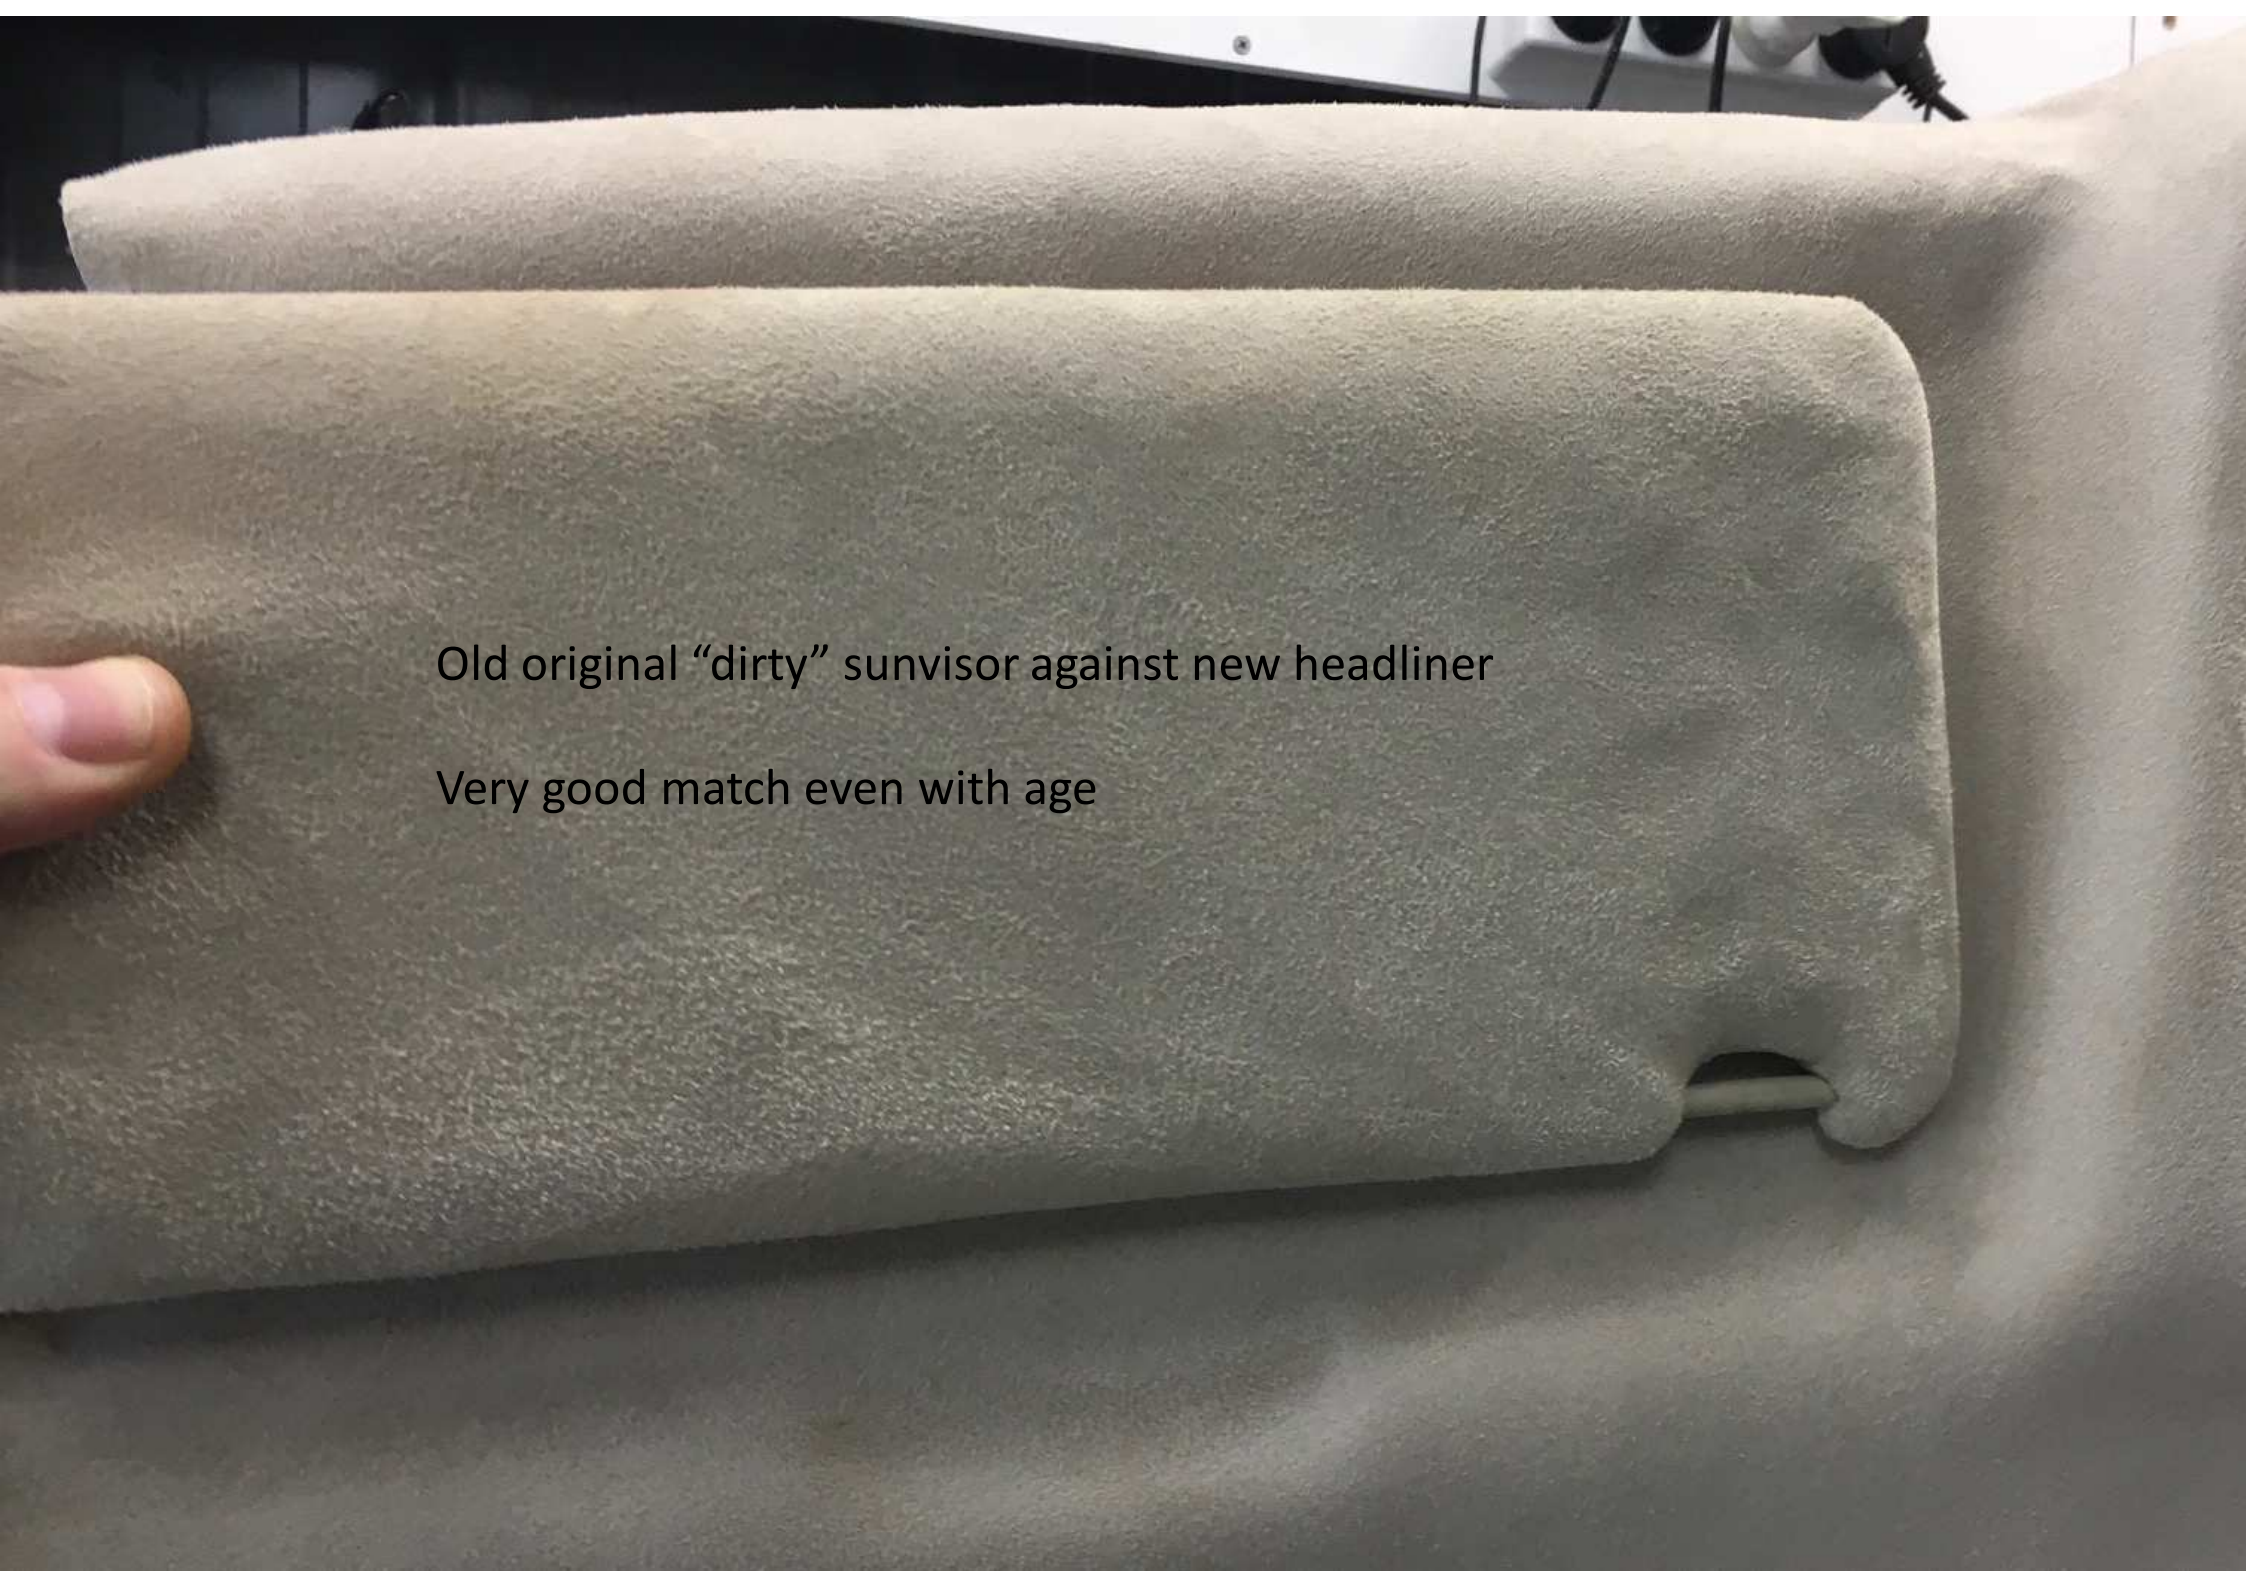

SYD
1788

W

Typical failure of foam backing

Old original “dirty” sunvisor against new headliner

Very good match even with age
